

NIRAJ OJHA

Software Engineer

📞 3372923058 @nischalojha2@gmail.com 🔗 <https://www.linkedin.com/in/NirajOjha> 📍 Lake Charles, LA

EXPERIENCE

Full-Stack Web Developer

Circle A Foods <https://www.circleafoods.com/>

📅 2026 📍 Hackberry, LA

- Designed and developed a full-stack business website using React (Vite) for the frontend and Node.js with Express for the backend
- Implemented MongoDB-based data models for deals, fuel pricing, and customer reviews with admin moderation controls
- Built a secure admin dashboard with JWT authentication to manage deals, fuel prices, and review moderation
- Integrated dynamic UI features including image slideshows, Lottie animations, star-based reviews, and auto-rotating review displays
- Deployed and maintained both frontend and backend services online, ensuring cross-device compatibility and reliable API communication

Website Coordinator and SEO Specialist

Kush Education and Services

📅 08/2024 - 10/2025 📍 Sydney, Australia

- Maintained and updated website content, ensuring accuracy, branding consistency, and strong user experience
- Monitored site performance and SEO metrics, resolving issues and optimizing pages for speed and visibility
- Provided IT troubleshooting support and assisted staff with technical issues

NOTEABLE PROJECTS

Circle A Foods Business Website Development

📅 12/2025 - 02/2026 📍 Hackberry, LA

Full-Stack Web Developer

- Designed and developed a full-stack business website using React (Vite) for the frontend and Node.js with Express for the backend.
- Implemented MongoDB-based data models for deals, fuel pricing, and customer reviews with admin moderation controls.
- Built a secure admin dashboard with JWT authentication to manage deals, fuel prices, and review moderation.
- Integrated dynamic UI features including image slideshows, Lottie animations, star-based re-views, and auto-rotating review displays.
- Deployed and maintained both frontend and backend services online, ensuring cross-device compatibility and reliable API communication.

Pile Foundation Analysis Tool | Python, PySide6, Engineering

📅 09/2025 - 12/2025 📍 McNeese State University

- Developed a desktop application for axial and lateral pile analysis with automated t-z, q-z, and p-y soil interaction curve generation.
- Enabled project creation, data input, and interactive visualization of load-settlement behavior using a clean PySide6 interface.
- Packaged as a standalone Windows app with a professional installer, custom icons, and Start Menu/desktop shortcuts.

Voice-Controlled Robot Prototype | AI, Python, VOSK

📅 2024 - 2025 📍 Lake Charles, LA

- Designed a conceptual prototype for a voice-first multilingual robot interface.
- Created command taxonomy, UI interaction flows, and error-recovery prompts.
- Evaluated feasibility, risks, and user experience considerations for future implementation.

SKILLS

Java Python PHP SQL
